Associate Professor Sam Mann,
School of Information Technology,
Otago Polytechnic,
Forth Street, Dunedin

Dear Sam,

Gtours Project

I am writing to confirm that this afternoon your students, Seth, Vince and Adam, demonstrated the user interface that they have been working on for this project and set up a tour which was then tested in the field. The user interface and tour worked satisfactorily. At the end of the project they presented a CD with all the deliverable files on it.

We wish to compliment the students on the successful conclusion of their project.

Yours sincerely,

John Barsby
